Introduction to EPRIMS - the New Emergency Preparedness and Response (EPR) Information Management System

Emergency Preparedness and Response Information Management System (EPRIMS)

Main features
What is EPRIMS?

• Web-based knowledge management tool for:
  • Emergency preparedness and response
  • Nuclear reactor technical information
  • A database of information about a country’s arrangements and systems for managing nuclear and radiological emergencies
Why?

- Self-assessment
  - EPRIMS allows a country to measure itself against the IAEA safety standards
- Harmonization
  - Knowing about other countries’ EPR arrangements helps harmonization
- Global understanding
  - Sharing information on issues and challenges promotes a global understanding
- Enhance national capabilities
  - Sharing knowledge on solution helps enhance national capabilities
- Better prognosis and assessment
  - Sharing data on reactor designs helps the prognosis and assessment during emergencies

Country report

Choose preferred Category and Module
Report on National Arrangements to Face Nuclear or Radiological Emergencies
Member State: Austria

This report provides information considering the options selected by the user. Its content reflects the self-assessment made at the national level against IAEA safety standards on emergency preparedness and response.

This information is valid only on the dates it has been generated.

Partners Report

In order to generate a report from other country on their emergency preparedness and response arrangements and capabilities, please select below the modules you would like to include in the report. The report to be generated is a summary of information reflecting the options selected by the user. This document is mainly based on the Performance Indicators made by Member States and whenever applicable, is also based on other sources of information such as appraisal mission reports related to EPR, expert missions and other IAEA systems.

The information is only valid on the date it has been generated.

Please note that you will only be able to see the modules that the country is sharing with your country.

Partners:

- General
- EPC I
- EPC II
- EPC III
- EPC IV
