TRANSSC Technical Expert Groups:

**Intention:** To capture the technical capabilities of existing members of TRANSSC, and subject experts from their countries, in the various technical areas of the SSR-6 transport regulations, in a systematic and programmed structure.

Four TTEGs were established during TRANSSC 35:

- Radiation Protection (41 registered)
- Package Performance and Assessment (52 registered)
- Transport Operational Matters (40 registered)
- Criticality (29 registered)

Each TTEG SharePoint site serves as a repository for work and documents:

For access to a TTEG site contact: TransportSafety@ieae.org
