Following the Agency decision to cancel TRANSSC40 due to the current Covid19 pandemic, an on-line review and approval process of IAEA Safety Documents will be used for the documents uploaded to the ‘Draft Standards for Comment Web Folder’ on the TRANSSC web page.

The **deadline for comments** will be as indicated on each document folder.

**Comments Resolution Table** will be created after the deadline and uploaded to the relevant document folder **before 30 June 2020**

The Secretariat will send an email to all Committees to initiate a ‘silence approval procedure’ of **2 weeks starting 01 July 2020**.

The Agency appreciates your work to maintain the process of developing and publishing the IAEA Safety Documents

We wish for you, your families and colleagues to remain healthy during these difficult times.

Stay safe
