

# 56<sup>th</sup> IAEA General Conference

## IAEA Nuclear Safety and Security Programme

### Monday 17 September – Friday 21 September 2012

DATE		TIME	SIDE EVENT AGENDA	ROOM
MONDAY	17-Sep-12	2:00 — 4:00 p.m.	INSAG Forum: Assessing Progress in Worldwide Nuclear Safety	ACV-E2
		4:30 — 6:30 p.m.	Technical Workshop on the Accident at TEPCO's Fukushima Daiichi Nuclear Power Station, Organized by the Government of Japan	ACV-E2
TUESDAY	18-Sep-12	8:30 — 9:30 a.m.	Nuclear Security Education and Training	M4
		9:45 — 10:45 a.m.	Development of a Metal Recycling Code of Conduct, Hosted by the Government of Finland	M4
		9:30 a.m. — 12:00 noon	15 <sup>th</sup> Anniversary of the FORO: Sharing Practices and Experience in Radiological Protection and Nuclear Safety	ACV-E2
		11:00 a.m. — 12:00 noon	Nuclear Security Peer Reviews and Advisory Services	M4
		12:45 — 2:45 p.m.	Event Reporting for Medical Exposures	M4
		1:00 — 2:00 p.m.	Visit to the Accredited Testing Laboratory for Individual Monitoring	VIC
WEDNESDAY	19-Sep-12	1:00 — 2:00 p.m.	Visit to the Accredited Testing Laboratory for Individual Monitoring	VIC
		2:00 — 5:30 p.m.	ANSN Plenary Meeting	M0E79
		2:30 — 4:30 p.m.	Coastal and Shipping States Meeting	M6
		3:00 — 4:00 p.m.	Visit to the Incident and Emergency Centre	IEC
THURSDAY	20-Sep-12	9:00 a.m. — 5:30 p.m.	Senior Regulators' Meeting	ACV-E2
		1:00 — 2:00 p.m.	Visit to the Accredited Testing Laboratory for Individual Monitoring	VIC
		2:00 — 3:00 p.m.	Visit to the Incident and Emergency Centre	IEC
FRIDAY	21-Sep-12	10:30 a.m. — 1:00 p.m.	Regulatory Cooperation Forum (RCF) Meeting: Helping Member States Build Effectively Independent and Robust Regulators of Nuclear Power	M4 & M6

## IAEA Nuclear Safety and Security Programme

INSAG Forum 2012

Monday, 17 September 2012

**Austria Center Vienna**

**ACV Hall E2**

**2:00 p.m. – 4:00 p.m.**

### **INSAG FORUM: Assessing Progress in Worldwide Nuclear Safety**

The INSAG Forum 2012 will consider the progress made toward strengthening global nuclear safety in the light of the accident at TEPCO's Fukushima Daiichi nuclear power station. The Forum will be conducted as a roundtable discussion of invited panellists led by INSAG Chairman Mr Richard Meserve, with suitable time available for audience participation.

## IAEA Nuclear Safety and Security Programme

Technical Workshop on the Accident at TEPCO's Fukushima  
Daiichi Nuclear Power Station  
Monday, 17 September 2012

**Austria Center Vienna**  
**ACV Hall E2**  
**4:30 p.m. – 6:30 p.m.**

### Technical Workshop on the Accident at TEPCO's Fukushima Daiichi Nuclear Power Station

At this event the Government of Japan will provide further information on the impact of the nuclear accident at the Fukushima Daiichi nuclear power station as well as on the efforts of the Government to mitigate the consequences. A team of senior Japanese experts will give presentations and answer questions. This event is co-sponsored by the Agency.

## IAEA Nuclear Safety and Security Programme

Nuclear Security Education and Training

Tuesday, 18 September 2012

**M Building**

**Meeting Room M4**

**8:30 a.m. – 9:30 a.m.**

### **Nuclear Security Education and Training**

The event seeks to make States aware of the developments over the past year in the fields of nuclear security education and training, in particular the development of the European Master's Degree in Nuclear Security, the establishment of the nuclear security support centres network and assistance available to States wishing to set up support centres. The event will give examples of training courses delivered through the Agency.

## IAEA Nuclear Safety and Security Programme

Development of a Metal Recycling Code of Conduct

Tuesday, 18 September 2012

**M Building**

**Meeting Room M4**

**9:45 a.m. – 10:45 a.m.**

### Development of a Metal Recycling Code of Conduct

The metal recycling sector has a large international dimension involving substantial transboundary movement of scrap metal and semi-finished products of the metal recycling industries. Unfortunately, radioactive material is often inadvertently incorporated into scrap metal and semi-finished products that are subsequently shipped across national borders without the knowledge of the exporting or importing State.

Since 2010, the Secretariat has been facilitating the development for Member States of a Metal Recycling Code of Conduct that is intended to assist in establishing an international consensus on provisions to prevent such transboundary movement. A draft Metal Recycling Code of Conduct that was the product of the second open-ended meeting on its development was circulated to Member States for comment in April 2012.

The objective of this side event is to inform Member States about this important initiative and to allow the Secretariat to receive feedback from its Member States.

This event is being hosted by the Government of Finland.

## IAEA Nuclear Safety and Security Programme

15th Anniversary of the Ibero-American Forum

Tuesday, 18 September 2012

**Austria Center Vienna**

**ACV Hall E2**

**9:30 a.m. – 12:00 noon**

### **Fifteen Years of the Ibero-American Forum of Radiological and Nuclear Regulatory Agencies (FORO) – Sharing Practices and Experiences in Radiological Protection and Nuclear Safety**

The event marking the 15th Anniversary of the Ibero-American Forum of Radiological and Nuclear Regulators (FORO) will review the activities and achievements of this Association of regulators in promoting a high level of radiation and nuclear safety and security in the Ibero-American region. It will also look at the future by promoting discussions on regional needs and sharing experiences. The session will end with a round-table discussion. The language of the event will be Spanish.

## IAEA Nuclear Safety and Security Programme

Nuclear Security Peer Reviews and Advisory Services

Tuesday, 18 September 2012

**M Building**

**Meeting Room M4**

**11:00 a.m. – 12:00 noon**

### **Nuclear Security Peer Reviews and Advisory Services as a Tool for Needs Identification**

The purpose of this event is to make Member States aware of the value of IAEA peer reviews and advisory services, inter alia, for identifying nuclear security needs and best practices. The meeting will also highlight the outcome of recent IPPAS missions.

## IAEA Nuclear Safety and Security Programme

Event Reporting for Medical Exposures

Tuesday, 18 September 2012

**M Building**

**Meeting Room M4**

**12:45 p.m. – 2:45 p.m.**

### Event Reporting for Medical Exposures

There is a gross lack and even an absence of reporting of radiation events in medical exposure in most countries, despite regulatory requirements to report. Events leading to injuries to patients have been occurring in many countries, not only in radiotherapy but also in the use of procedures that replace surgery (interventional procedures using fluoroscopy).

The objectives of this event are: (1) to review the importance of learning lessons from radiation events in medicine in order to enhance safety for the patients; and (2) to review opportunities to share information in practice, through IAEA-developed international voluntary reporting systems for educational purposes in interventional procedures (SAFRAD) and radiotherapy (SAFRON).

## IAEA Nuclear Safety and Security Programme

Visits to the Individual Monitoring Lab

Tuesday, Wednesday and Thursday, 18, 19 & 20 September 2012

**Registration and Assembly Point: Information Desk/M Building**

**Maximum of 20 visitors daily**

**1:00 p.m. – 2:00 p.m.**

### Visits to the Accredited Testing Laboratory for Individual Monitoring

Delegates (or persons designated by them) will have the opportunity to visit the Accredited Testing Laboratory located in the VIC for individual monitoring.

The Radiation Monitoring and Protection Service assesses the occupational exposure of IAEA staff and contracted experts for external sources of radiation and intakes of radionuclides, and provides assistance to Member States through fellowships and technical advice. The visit offers a view of the Whole Body Counter as well as all other laboratories, for instance those used for urine analyses and gamma, alpha and beta spectrometry.

Registration for this visit should be made at the Information Desk, M Building entrance, ground floor. The assembly point for delegates is the Information Desk at the entrance to the M building. Owing to space constraints, a maximum of 20 visitors, can visit the laboratory each day.

## IAEA Nuclear Safety and Security Programme

ANSN Plenary Meeting  
Wednesday, 19 September 2012

**M Building**  
**Meeting Room M0E79**  
**2:00 p.m.– 5:30 p.m.**

### ANSN Plenary Meeting

The objectives of the ANSN Plenary Meeting are: (1) to facilitate the establishment of safety infrastructures for nuclear power programmes within individual Member States and capacity building within the region via strong commitment from high level management within ANSN member states; (2) to serve as a top decision making authority and assist in the formulation of national strategies related to implementation of The Vision of ANSN for the Year 2020; and (3) to provide a forum to discuss needs and perspectives as well as to disseminate and share good practices and achievements.

# 56th IAEA General Conference

## IAEA Nuclear Safety and Security Programme

Coastal and Shipping States Meeting  
Wednesday, 19 September 2012

**M Building**  
**Meeting Room M6**  
**2:30 p.m. – 4:30 p.m.**

### Coastal and Shipping States Meeting

This side event provides a forum for discussion of communication between relevant shipping and coastal States, including IAEA involvement.

*Working to protect people,  
society and the environment*

International Atomic Energy Agency  
*Atoms for Peace*

# 56th IAEA General Conference

## IAEA Nuclear Safety and Security Programme

Visits to the Incident and Emergency Centre  
Wednesday and Thursday, 19 & 20 September 2012

### **Assembly Point: Information Desk/M building**

**3 p.m. – 4 p.m. on Wednesday**

**2 p.m. – 3 p.m. on Thursday**

### **Visits to the Incident and Emergency Centre**

Delegates (or persons designated by them) will have the opportunity to visit the IAEA's Incident and Emergency Centre (IEC), which is situated in the VIC. The IEC serves as the IAEA's focal point for responding to nuclear or radiological incidents and emergencies and for promoting improvement in Member States' emergency response and preparedness.

The visit will present the activities, infrastructure and communication procedures of the IAEA's IEC.

Registration for the visits should be made at the Information Desk, M building entrance, ground floor. The assembly point is the Information Desk at the M building entrance, ground floor, at 2:45 p.m. on Wednesday, 19 September 2012, and at 1:45 p.m. on Thursday, 20 September 2012. The planned duration of each visit is 1 hour.

## IAEA Nuclear Safety and Security Programme

Senior Regulators' Meeting  
Thursday, 20 September 2012

**Austria Center Vienna**  
**ACV Hall E2**  
**9:00 a.m. – 5:30 p.m.**

### Senior Regulators' Meeting

Organized each year during the General Conference, this meeting is a forum for senior government officials from Member States to exchange information and experience on current policy and technical issues and challenges related to regulatory matters in the fields of nuclear, radiation, transport and radioactive waste safety and nuclear security.

*Session I: Best Practices in Planning for Remediation;*

*Session II: Specific Challenges in Implementing Remediation with a panel discussion on: Overall Decision Making in Planning for Remediation;*

*Session III: Regulatory Challenges in Nuclear Security.*

*Working to protect people,  
society and the environment*

## IAEA Nuclear Safety and Security Programme

Regulatory Cooperation Forum, Friday, 21 September 2012

**M Building**  
**Meeting Room M4 & M6**  
**10:30 a.m. – 1:00 p.m.**

### **The Regulatory Cooperation Forum (RCF): Helping Member States Build Effectively Independent and Robust Regulators of Nuclear Power**

The Department of Nuclear Safety and Security, together with concerned Member States, will provide an overview of the RCF, including background and objectives, recent activities and results from the RCF Programme evaluation. The IAEA will present its support activities for countries embarking on nuclear power. In addition, RCF members will provide their perspectives on the benefits of the RCF. The RCF aims to facilitate and promote the coordination, collaboration and exchange of regulatory knowledge and experience among Member States involved in nuclear power, and to effectively facilitate the channelling of resources from Member States willing to provide support to those Member States building independent and robust regulators of nuclear power.
