

## **Mr. D. F. Torgerson**

**David F. Torgerson**  
**Senior Vice-President and**  
**Chief Technology Officer**  
**Atomic Energy of Canada Limited**  
**(AECL)**

Dr. Torgerson joined AECL in 1976 at AECL's Whiteshell Laboratories in Pinawa, Manitoba. In 2001, he was appointed to his current position of Senior Vice-President Technology, and is also Chief Technology Officer. He is responsible for AECL's nuclear facilities, R&D, and waste management and decommissioning activities. He is also responsible for all activities related to the technology and market development of the Advanced CANDU Reactor (ACR) as well as technology programs to develop AECL's fleet of CANDU reactor designs, products and services.

He was elected a fellow of the Chemical Institute of Canada in 1986, a fellow of the Canadian Nuclear Society in 1995, and received the W.B. Lewis Medal from the Canadian Nuclear Association in 1999.

Dave Torgerson was educated at the University of Manitoba (B.Sc.(Hons), M.Sc.), and at McMaster University, where he received his Ph.D. in Nuclear Chemistry in 1969.
