The Secretariat of the International Atomic Energy Agency (IAEA) presents its compliments to the Ministries of Foreign Affairs of the IAEA's Member States and has the honour to request that they draw the attention of the appropriate governmental authorities to the forthcoming **Fourth Technical Meeting on Modelling and Data for Radiological Impact Assessments** to be held at the IAEA's Headquarters in Vienna, Austria, from **9 to 13 November 2015**.

The purpose of this final Technical Meeting under the Modelling and Data for Radiological Impact Assessments (MODARIA) programme is to analyse the progress made by the ten working groups; to discuss the status of the ten respective working group reports; to explore the further dissemination of the results of the MODARIA programme through publication in scientific journals dealing with the various subject areas covered by the programme; and to discuss open questions on environmental modelling as well as proposals to be made for future IAEA programmes on the testing and comparison of radioecological models.

The meeting will be held in English.

Member States are invited to nominate one or more participants for this meeting. Member States are strongly encouraged to identify suitable women participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the meeting. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Such assistance may be offered upon specific request to normally one participant per country provided that, in the IAEA's view, the participant on whose behalf assistance is requested will make an important contribution to the meeting. The application for financial support should be made at the time of nominating the participant.

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in meetings, workshops or training courses or for consultants. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

Nominations should be submitted through the established official channels not later than **1 September 2015** for the attention of the Scientific Secretary of the meeting, Mr Gerhard Proehl, Division of Radiation, Transport and Waste Safety, Department of Nuclear Safety and Security, IAEA, Vienna International Centre, PO Box 100, 1400 Vienna, Austria (Tel.: +43 1 2600 22854; Fax: +43 1 26007 22962; Email: G.Proehl@iaea.org). Nominations should also be copied to the Administrative Secretary for the meeting, Ms Claire Halsall (Email: C.Halsall@iaea.org). The full names and complete contact details (including postal address, telephone/fax numbers, and email address) of nominated participants should be provided.

The Secretariat of the International Atomic Energy Agency avails itself of this opportunity to assure the Ministries of Foreign Affairs of the IAEA's Member States of its highest consideration.
