

Objectives for this week :

- To finalize the TECDOC
- To examine and discuss the draft version of TRS
- To examine and discuss contributions from other working groups
- To plan the work for TRS and JER

To finalize the TECDOC

Generally speaking, the TECDOC is quite finalized

- The comments made have been easily taken into account
- The majority of the chapters have been already finalized or will be finalized soon
- The group decided to stop the integration of new sections
- More than 600 pages with the annexes
- The reference basis for the TRS

To examine and discuss the draft version for TRS

- Not all the contributions
- Contributions and external proposals discussed throughout the different chapters

The group wanted to stress :

- It is up to the group to write the scientific chapters of the TRS
- To fill the TRS with the main information contained in the TECDOC
- To keep the TRS as concise as possible and in any case not exceeding 200 pages
- To scientifically improve this new TRS and to show it

Work planning

- TECDOC : end of November, end of this year at the latest (finalized version in January 2008)
- TRS : end of this year, January at the latest (finalized version between April and June 2008)
- Special issue of JER : end of this year for the draft (finalized papers in June 2008)

TRS will be published with attached a CD containing the TECDOC as the basis for detailed information and references
