EMRAS II, Theme 3:Approaches for Assessing Emergency Situations

Working Group 9 Urban Areas Working Group

Kathleen Thiessen, WG Leader

24–28 January 2011 Vienna

WG participants

- 26 persons participating this week
- 3- 9 modellers for each exercise
- 19 countries represented:

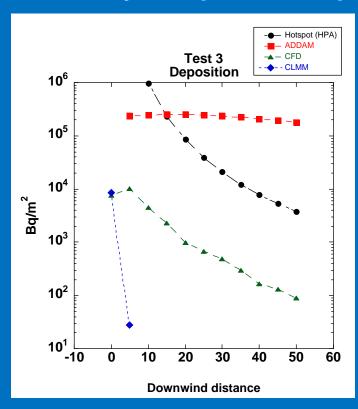

Austria, Belarus, Canada, Croatia, Cuba, Czech Republic, Denmark, Finland, France, Germany, Hungary, Iran, Italy, Korea, Netherlands, Slovakia, Spain, United Kingdom, United States

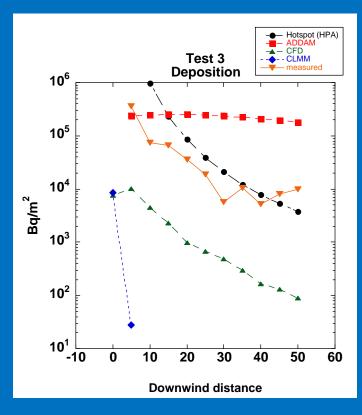

Progress this week

- Discussion of results for all three modelling exercises
 - Atmospheric dispersion, short-range
 - Atmospheric dispersion, mid-range
 - Contaminant transport and countermeasures
- Discussion of plans and schedules
 - Finishing the exercises
 - Preparation of WG report
 - Possible exercises for new IAEA program
- Preliminary plan for interim meetings of subgroups:
 - 15-17 June 2011, Ontario
 - September 2011, Vienna

Atmospheric dispersion, short-range

- Calculations from 8 participants
- Preliminary comparison of predictions with measurements

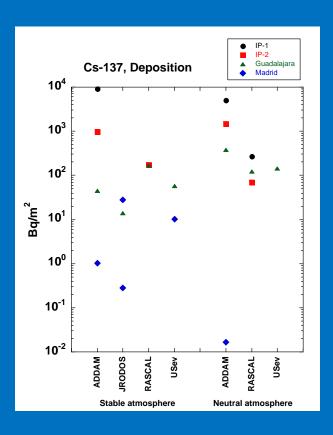

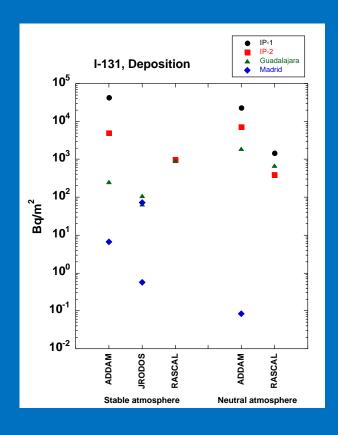

An additional participant is modelling the source term from deposition measurements

Atmospheric dispersion, mid-range

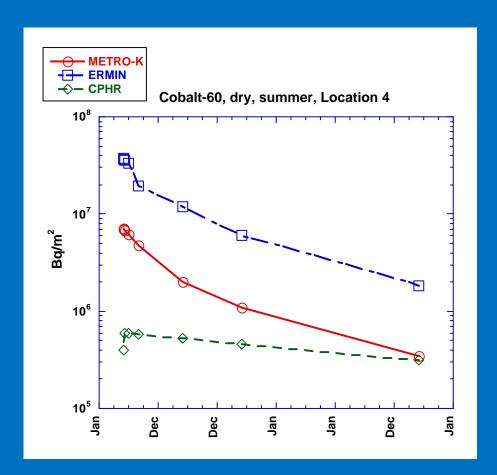

Calculations from 5 participants

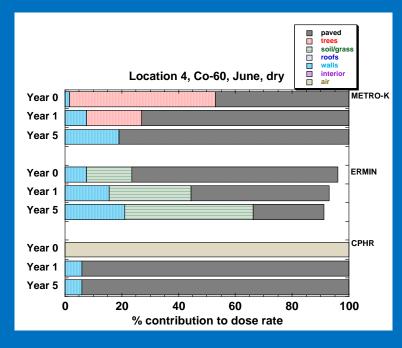

Contaminant transport and countermeasures

Calculations from 3 participants

Contaminant transport and countermeasures
