

International Atomic Energy Agency

**Review of Implementation,
Modifications & Evolutions of
Safety Assessments
Working Group -Overview**

Main FaSa Objective on Review

- **To prepare recommendations on approaches to review the implementation of the results of decommissioning safety assessments in decommissioning planning throughout the facility life cycle**
- **Scope includes reviews by operators, regulators and independent reviews**

Areas addressed

- **Reviews of safety assessments in final decommissioning plans**
- **Reviews of the implementation of results from changes to safety assessments**
- **Reviews of implementation of safety assessment results during inspections**
- **Periodic safety reviews**
- **Member State experience**

Scope of Work

- **Analyse the Member States experiences and approaches to review of the implementation, of changes to safety assessments.**
- **Develop and document an agreed approach to assess the implementation of the changes**
- **Review for each of the Test Cases to test the review approach to provide feedback to the Test Case draft reports.**
- **Incorporate experience resulting from applications of the DeSa methodology on regulatory review**

Interfaces with other Working Groups

- **2009/2010**
 - **Conduct of Decommissioning WG**
 - **Termination WG**
- **2010/2011**
 - **Implementation WG**
 - **Test cases**

Working Group Outputs

- **Recommendations on:**
 - **reviews of safety assessments in the final decommissioning plan;**
 - **reviews of the implementation of safety assessment results during conduct of decommissioning, including inspection;**
 - **reviews of modifications and evolutions of safety assessments;**
 - **feedback to the Implementation Working Group;**
 - **feedback and recommendations on the Test Cases.**

Work Plan/Schedule

- **2009:**
 - Organize the Working Group ✓
 - Review test case and other WG reports as they are developed ✓
- **2010:**
 - WG meetings to develop review approaches ✓
 - Prepare WG draft report 😊 ✓
- **2011:**
 - Apply approaches to test cases
 - Prepare final report

Thanks to WG & Reviewers
