

NATIONAL COMPETENT AUTHORITIES
RESPONSIBLE FOR APPROVALS AND AUTHORIZATIONS IN RESPECT OF
THE TRANSPORT OF RADIOACTIVE MATERIAL

23 October 2015

INTRODUCTION

The IAEA's Regulations for the Safe Transport of Radioactive Material (TS-R-1) are recognized as the international authoritative standards for both the national and the international transport of radioactive material. The IAEA Regulations assign responsibilities and dedicate an entire chapter to the competent authorities in transport.

Any national authority with designated work in connection with the IAEA's Transport Regulations is known as a competent authority. In the Member States, such a body has the responsibility for overseeing that national legislation brings the Agency's Transport Regulations into effect and for assuring compliance with its requirements. Depending on the national regulatory or institutional framework, the functions of the competent authority may be assigned to one or more bodies.

To enhance better communication between Member States and to assist States in carrying out compliance assurance in respect to the above, the IAEA has recently updated the list of designated national competent authorities. Member States will be annually requested to verify the list for correctness and completeness.

To report changes/corrections or to obtain additional information, please contact:

The Transport Safety Unit
Regulatory Infrastructure and Transport Safety Section (RIT)
Division of Radiation, Waste & Transport Safety
International Atomic Energy Agency (IAEA)
P.O. Box 100
A-1400 Vienna, Austria
Tel.: (+43 1) 2600
Fax: (+43 1) 26007
Email: Transportsafety@iaea.org
