Le Secrétariat de l’Agence internationale de l’énergie atomique (AIEA) présente ses compliments aux ministères des affaires étrangères des États Membres de l’AIEA et a l’honneur de leur demander d’appeler l’attention des autorités gouvernementales compétentes sur le projet de texte ci-après, destiné à être publié dans la collection Sécurité nucléaire de l’AIEA :

Establishing a System for Control of Nuclear Material for Nuclear Security Purposes at a Facility During Storage, Use and Movement
(NST033)

Les États Membres et leurs experts auront ainsi l’occasion d’examiner et d’évaluer ce projet, qui est disponible en ligne à l’adresse suivante :

Une version imprimée de ce projet de texte pourra être envoyée sur demande.

Les modifications éventuelles qu’il sera proposé d’y apporter à la suite de son examen par les États Membres seront prises en compte pour sa mise au point définitive.

Les États Membres sont priés de bien vouloir communiquer leurs observations sur ce projet en suivant les indications données dans la note explicative ci-jointe.

Explanatory Note

Establishing a System for Control of Nuclear Material for Nuclear Security Purposes at a Facility During Storage, Use and Movement (NST033)

The draft text for review, entitled Establishing a System for Control of Nuclear Material for Nuclear Security Purposes at a Facility During Storage, Use and Movement was prepared as draft Technical Guidance for publication in the IAEA Nuclear Security Series and has already been reviewed through consultants’ meetings, as well as by the Nuclear Security Guidance Committee (NSGC).

The objective of this draft text, as accepted by NSGC, is to describe practical measures for controlling nuclear material for nuclear security purposes during all activities at a facility, including movements, and how to use a graded approach in applying such measures.

Comments are requested in relation to:

• Relevance and usefulness — Are the stated objectives appropriate, and are they met by the draft text?

• Scope and completeness — Is the stated scope appropriate, and is it adequately covered by the draft text?

• Quality and clarity — Does the guidance in the draft text represent the current consensus among specialists in the field, and is it expressed clearly and coherently?

Comments of an editorial nature will be considered; however, it should be noted that the draft text will be comprehensively edited by the IAEA Secretariat.

Any comments should be made in English, should refer to the relevant paragraph number in the draft text being reviewed, and should propose alternative text where appropriate. Please use the attached Form for Comments to record all comments.

The responsible IAEA officer is Mr Noah Pope of the Department of Nuclear Safety and Security, who may be contacted for further information in connection with this subject by telephone at: +43 1 2600 21813 or via email at: N.Pope@iaea.org.

Any comments should be sent through the established official channels to the responsible IAEA officer by 6 February 2015.
